### Humidity Record

Document ambient temperature and relative humidity (RH) every 24 hours during times of low environmental humidity.

Document ambient temperature and RH every 3 hours from May to October when the RH is above the control level of 52%.

Date	Time	Desk Area		OR I		OR II		OR III		Sterile Storage		MDR		Actions Taken	Initial

		Temp	RH	Temp	RH	Temp	RH	Temp	RH	Temp	RH	Temp	RH		
		Temp	RH	Temp	RH	Temp	RH	Temp	RH	Temp	RH	Temp	RH		

Ambient temperature parameters are 20°C-23°C (68°F-73°F). Relative humidity parameters are 30% - 60%.  
 \*Notify the CSM or designate when RH level >52%.
