

NEUROLOGICAL ASSESSMENT RECORD: ACUTE CARE

Legend for abbreviations for use with this document: C = eyes closed by swelling; T = endotracheal or tracheostomy tube; RT = right; LT = left; mm = millimeters; N = normal; SL = sluggish; F = focused; R = regular; I = irregular; Resp. = respirations; SH = shallow; L = labored; CS = cheyne stokes; RA = room air; LPM = liters per minute; NP = nasal prongs; FM = face mask; OXY = oxymask; NRB = non-rebreathe mask; BIL = bilateral; Non Testable = NT

		DATE									
		TIME									
GLASGOW COMA SCALE	EYE OPENING	Spontaneously	4							C: Eyes Closed by Swelling Score= NT	
		To Sound	3								
		To Pressure	2								
		None	1								
		Non-Testable	NT								
	VERBAL RESPONSE	2 yrs and older		Less than 2 yrs							T: Endo-tracheal or tracheostomy tube Score = NT
		Oriented	Smiles, babbles	5							
		Confused	Irritable cry	4							
		Words	Cries to pain	3							
		Sounds	Moans to pain	2							
		No Response	No Response	1							
		Non-Testable	Non-Testable	NT							
	MOTOR RESPONSE	Obeys command	6							Record the <u>best</u> arm Response. If no movement due to paralysis Score=NT	
		Localizing	5								
		Withdrawal Normal Flexion	4								
Abnormal Flexion		3									
Extension		2									
None		1									
Non-Testable		NT									
ADULT GLASGOW COMA SCALE SCORE			15								
PUPILS	Size in mm	SIZE	RT						Reaction: N – Normal SL–Sluggish F – Fixed Pulse: R – Regular I – Irregular Resp: N - Normal SH- Shallow L – Labored I – Irregular CS - Cheyne Stokes		
		2	LT								
		3	RT								
		4	LT								
		5	PULSE: Rate and Rhythm								
		6	RESPIRATION: Rate & Rhythm								
		7	TEMPERATURE °C								
		BLOOD PRESSURE									
		O ₂ SATURATION %									
		O ₂ Flow and Device or Room Air (R/A)									
LIMB MOVEMENTS	ARMS	NORMAL POWER							Record right and left separately if there is a difference between the two sides		
		MILD WEAKNESS									
		SEVERE WEAKNESS									
		LOCALIZES									
		FLEXOR WITHDRAWAL									
		EXTENSION									
		NO RESPONSE									
	LEGS	NORMAL POWER									
		MILD WEAKNESS									
		SEVERE WEAKNESS									
		LOCALIZES									
		FLEXOR WITHDRAWAL									
		EXTENSION									
		NO RESPONSES
