

Overhead Lift - Consent for Installation

Clients residing in a rental property and require the installation of an overhead lift system must obtain consent from the owner/property management prior to installation. Southern Health-Santé Sud is not responsible for any damages/repairs that incur a result of client's overhead lift system installation or removal.

Client

I _____ currently reside in a rental property and have obtained consent below for the installation of an overhead lift system from the landlord/property manager of the property in which I reside.
